'Digital Disruptor' - 2017

Who We Are

FarEye is a digital logistics platform to efficiently move goods. It is empowering global leaders with predictive visibility and operational intelligence to achieve on-time deliveries at reduced cost.

Business need

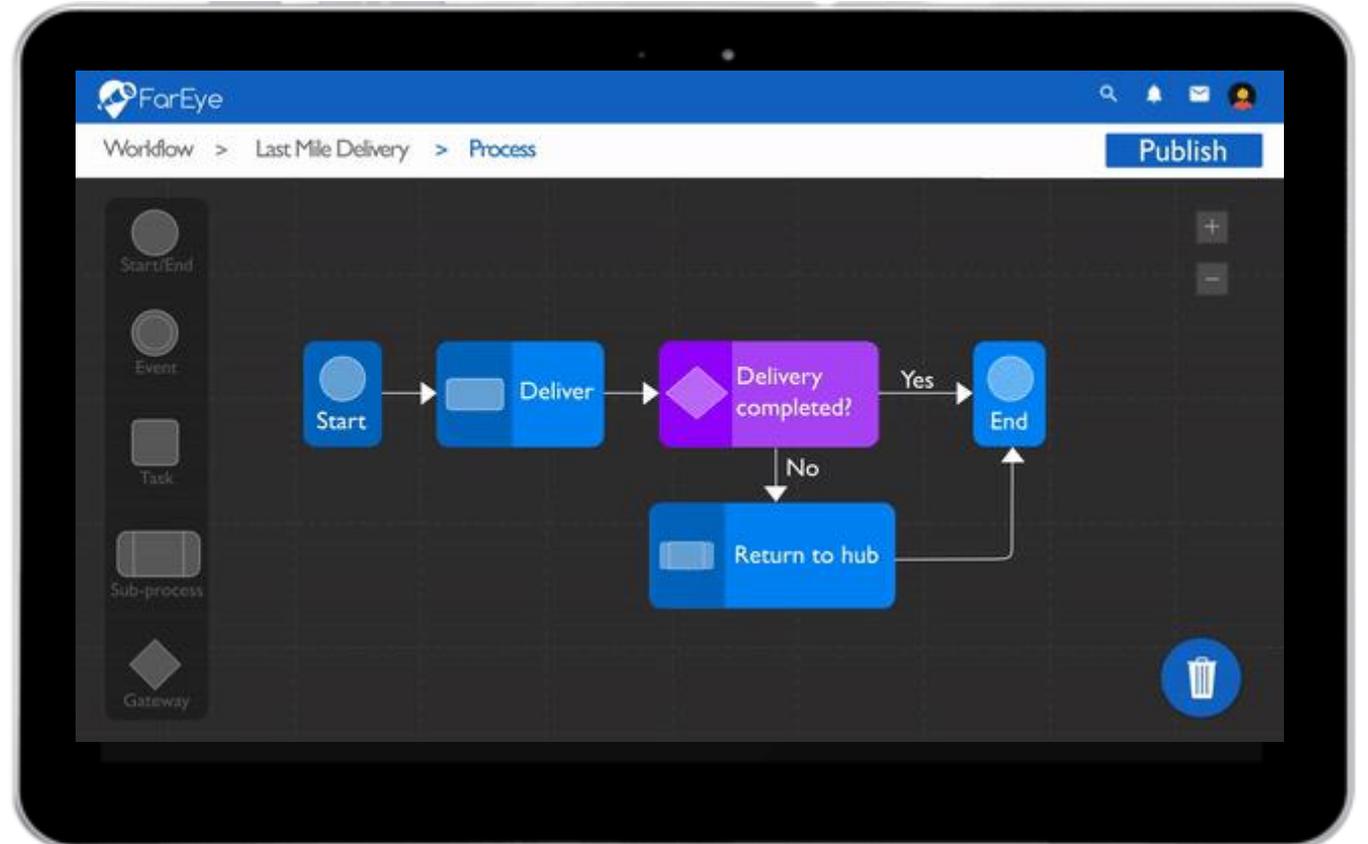

- Increase stops per hour
- Live tracking to customers
- Multiple delivery points for customers
- Faster GTM or VAS capabilities

FarEye's Offering

- Branded customer live tracking and personalized deliveries
- Dynamic routing engine
- Configurable workflow templates for new business initiatives – Elastic logistics
- Mobile app for parcel shops

Benefits

- 2X increase in courier satisfaction rate
- 15% increase in productivity of delivery agents
- Improved delivery transparency with live tracking
- Increased customer satisfaction rates

Business need

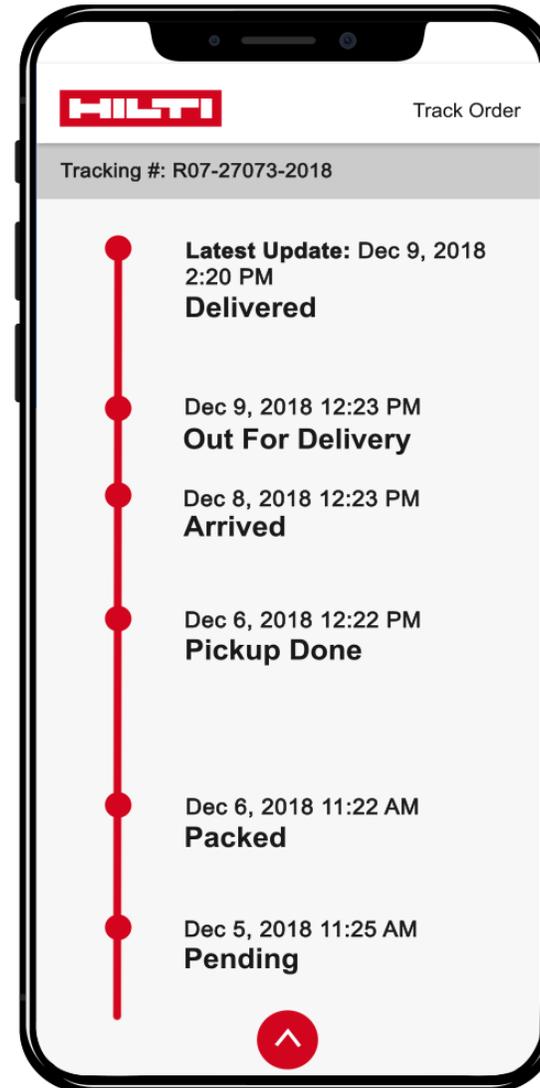

- Visibility – internal and external to customers / engineers
- Proactive identification of delays
- Choosing right 3PL/carrier
- KPI benchmarking & SLA adherence

FarEye's offering

- Amazon-standard consumer experience – live tracking and feedback
- Live dashboard to monitor on-time/delayed shipments
- Dashboard for transportation performance management
- Data-driven and rule-based 3PL assignment

Benefits

- On-time in full deliveries increased by 6%
- Undelivered cases without any remarks decreased by 30%
- Increase in productivity by 12-15% across stakeholders in sales and supply chain team
- Order level traceability and auditability

Business Need

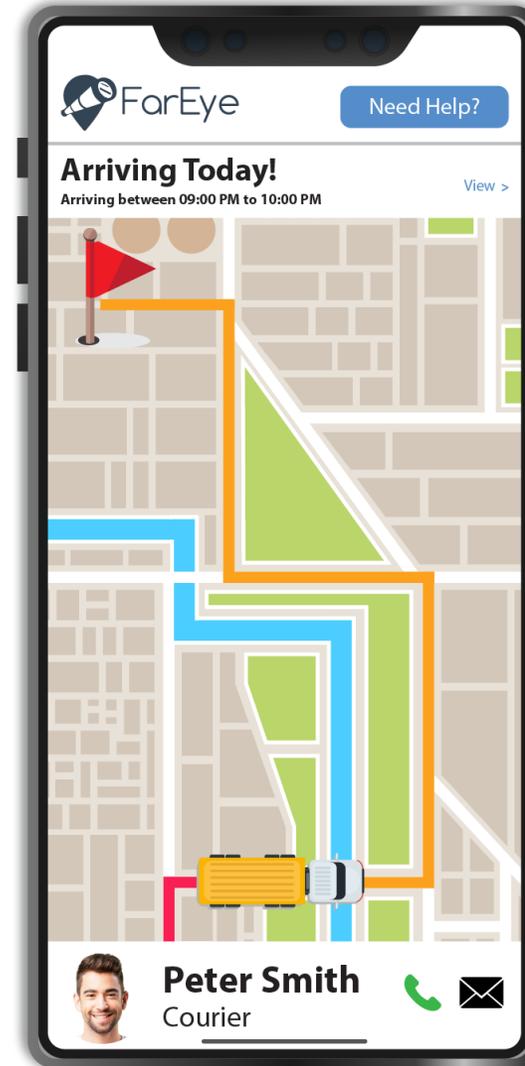

- Hours/Days wait time for site engineer waiting for the equipment
- Identify bottlenecks for delay and eliminate
- Preventive information for delays

FarEye's Offering

- Auto-allocation of orders
- Analytics to monitor live operations
- Live tracking link to site engineers
- ETA predictability

Benefits

- Improved On-Site Productivity
- Real-Time Visibility for all key stakeholders
- Improved Collaboration among field staff

FarEye Solution For Hi-Tech Industry

FarEye Technology Capabilities

Mobility

Simple, secure & easy-to-use mobile platform to better manage field operations & improve productivity

Workflow Engine

Drag-and-drop based workflow engine that shortens go live time and helps easy execution of process changes to improve operational throughput

Connectivity

TMS/ERP integrations, GPS/ELD integrations, IoT integrations, that power real-time visibility into the status and state of the shipment in-transit

Analytics

Insightful reports and actionable analytics that pave way for data-driven decision making

Machine Learning

Powerful data-driven capabilities where actionable insights are put to action to drive predictive ETA and enable preventive actions
