AI that keeps the world running

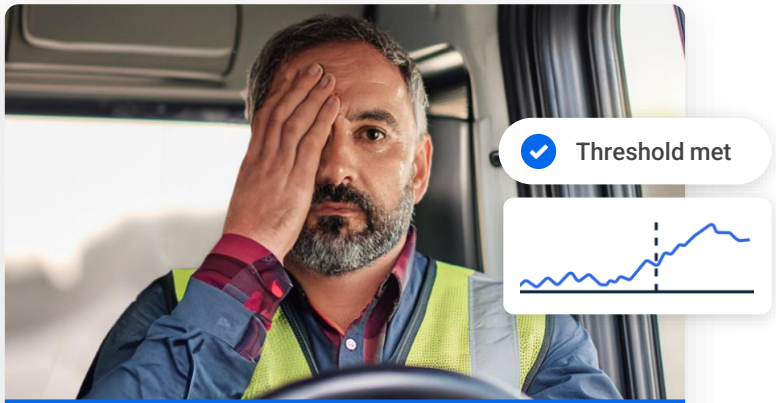
Alex Ramos
Director of Sales Engineering
alex.ramos@samsara.com

Dash cams with AI detections

Single Behavior

*Legacy industry approach**

Uses facial landmarking to scan for **single behaviors**, like eye closure or yawning



Modern Machine Learning

Samsara's approach

Learns from **real-world examples**, detecting all the ways fatigue might show up

**Samsara does not and has not used facial landmarking in our AI models*
