

Leading global healthcare company partners with DHL to deliver health with a strong message: the time to decarbonize is now

Sustainability is a key commitment to the customer's final consumers

Customer Challenge

- Customer with dedicated environmental strategy including Scope 3 reduction targets
- Customer seeking to find a reliable partner to jointly decarbonize transport solutions

DHL Solution

- Understanding the customer's clear annual emission ramp down plan
- Securing and simplifying a sustainable fuel switch to decarbonize
- Products aligned with sustainability frameworks as differentiator from competition

Benefits and Impact

- 30,000 tons of CO₂e reduced for the year 2023
- Strategic partnership driving decarbonization in healthcare and logistics – now and in the future
- Customer positioned itself as a front-runner in the sector, joining a select group using sustainable fuels
