ANALYTICS

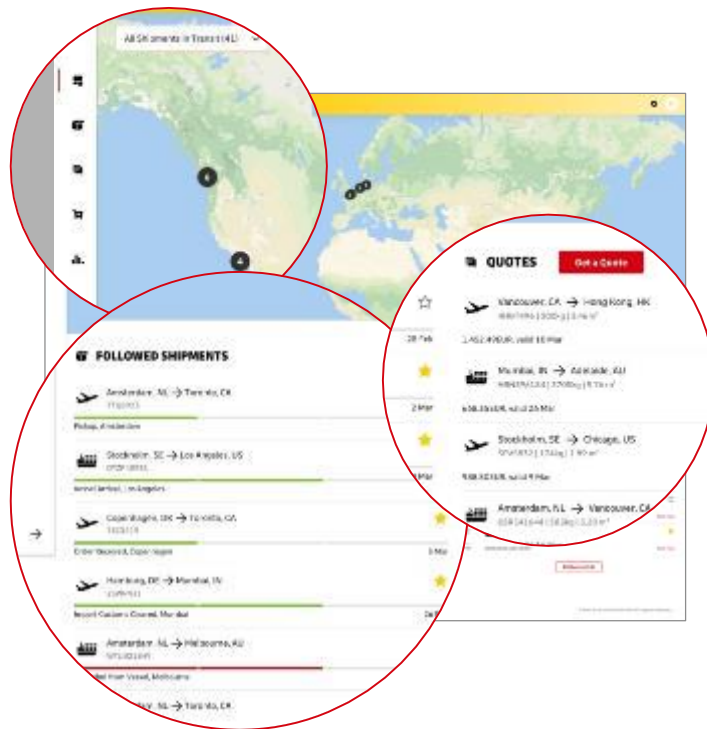

myDHLi Dashboard

What it can do for you

- Your myDHLi Dashboard is your window into myDHLi
- Choose the information you want to see at first glance from a variety of options

What it includes

- Map: See instantly where all your shipments – in-transit are, or filter for a specific transport mode
- Quote & shipment lists: Quickly access specific quotes or shipments that are important to you
- Analytics: View a summary of your main analytics data and deep-dive from there

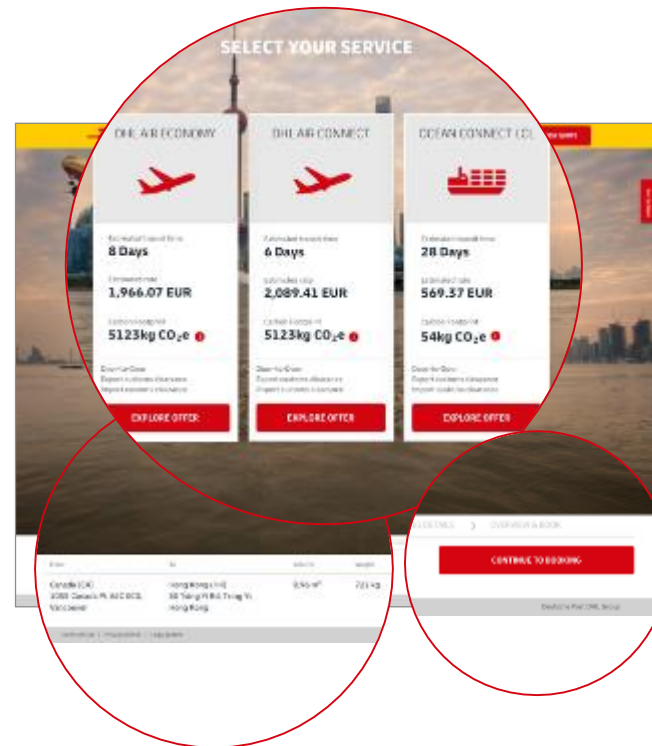

myDHLi Quote + Book

What it can do for you

- Easy and fast access to tailored quotes and bookings
- Competitive rates
- Helps you choose the best mode of transport, speed and rate
- Knows your CO₂ impact and helps you reduce or offset emissions by, for example, selecting alternative fuel options
- Save your quote and book up to 30 days after quotation

What it includes

- Modes of transport available
 - Air Freight general cargo up to 2,000kg per shipment
 - Ocean Freight LCL (Less Than Container Load) up to 10,000kg/20cbm per shipment
 - Ocean Freight FCL (Full Container Load)
 - More complex quotes shared via email, e.g., Rail, Dangerous Goods, etc.
- Quotes for pre-paid, collect and cross-trade shipments
- Quotes based on your contracted rates with DGF

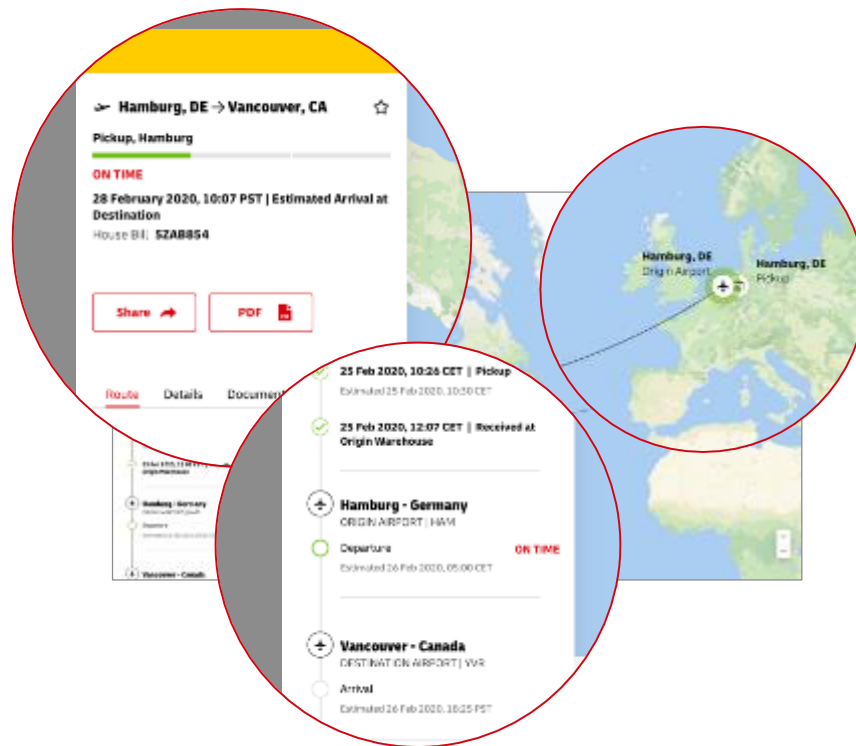

myDHLi Track

What it can do for you

- Track and trace your shipment progress in near to real-time
- 360 degree visibility and full control over your shipments from pick-up to final delivery
- Access your shipments however you want, search by container number, your own reference, filter by location or access directly from the map
- Helps you manage your Supply Chain, for example, in case of change in delivery dates

What it includes

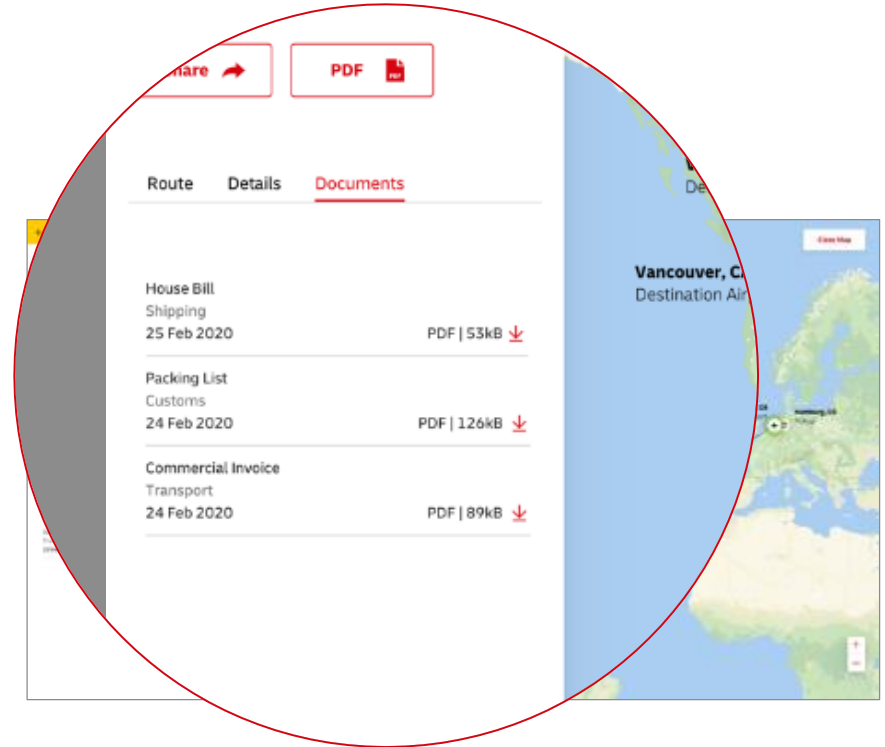

- Shipment updates and location information directly from the DHL Transport System and GPS data
- Exhaustive raw data with excel data extracts
- Intelligent search and filter functionality

myDHLi Documents

What it can do for you

- Easy and quick access to all your shipment documents in one place – past, present and future
- Documents include Quote, Commercial Invoice, Packing List, Housebill, Invoice, Proof of Delivery, etc.
- Download your documents whenever you need them

myDHLi Analytics

What it can do for you

- Powerful dashboards available 24/7
- Analysis of all your logistics activities with DGF
- Possibility to customize data by various views and filter options, supporting analysis and deep dives
- Transparency and meaningful insights enable data-based decisions

What it includes

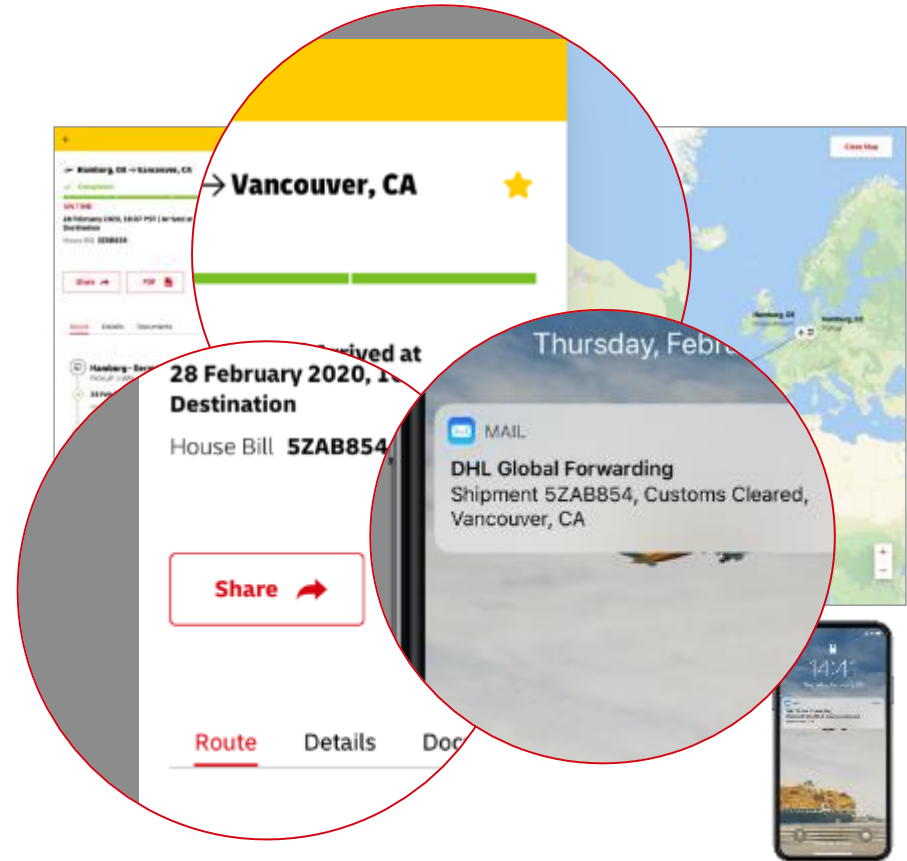

- Set of standard dashboards
- Spend (invoices)
- Volume
- Service Quality (on-time performance, incidents)
- Customs Activity (selected countries)
- Data available based on bill-to-account (you see shipments that you have paid for)

myDHLi FOLLOW + SHARE

What it can do for you

- Simplifies information sharing and collaboration with colleagues, customers and partners
- Allows you to follow shipments and quotes to quickly access what is important to you
- Get proactive notifications on major shipment milestones
- Stay in control and always connected

THANK YOU
