

How to install DHL for WooCommerce

1. Ensure that WordPress is installed and the WooCommerce plugin is activated
2. Plugins > Add New

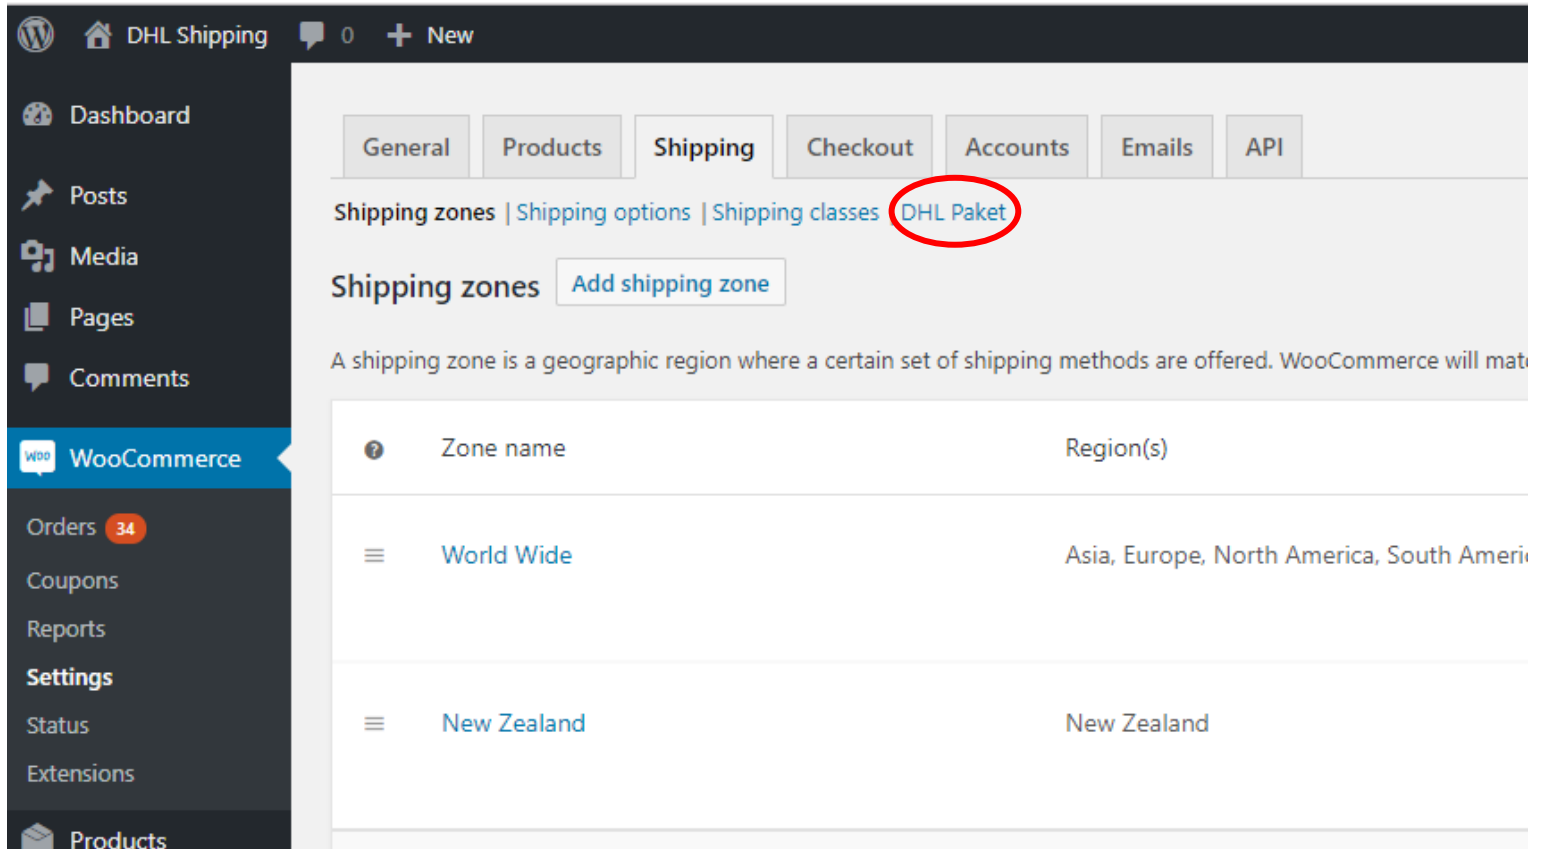

3. Install the "DHL for WooCommerce" plugin by using one of the following options:
 - a. Search in taskbar for 'DHL for WooCommerce' and click 'Install Now'
 - b. Follow [this link](#) to download the zip file. Do not unzip
Upload Plugin > Choose File > Install Now
4. Go back to the plugins menu, find your plugin and click 'activate'

To find out which configuration settings you'll need: The shipping service will be automatically assigned to your account depending on which country(s) you're shipping to. E.g. shipping only within Germany will mean only DHL Paket is available to you. DHL eCommerce is only available in non EU countries

Go to:

WooCommerce > Settings > Shipping > Check the service offered

The screenshot shows the WooCommerce admin interface. The top navigation bar includes 'DHL Shipping', '0' notifications, and a '+ New' button. The left sidebar contains various menu items: Dashboard, Posts, Media, Pages, Comments, WooCommerce (highlighted), Orders (34), Coupons, Reports, Settings, Status, Extensions, and Products. The main content area is titled 'Shipping' and includes tabs for 'General', 'Products', 'Shipping', 'Checkout', 'Accounts', 'Emails', and 'API'. Under the 'Shipping' tab, there are links for 'Shipping zones', 'Shipping options', 'Shipping classes', and 'DHL Paket' (circled in red). Below these links, there is a section for 'Shipping zones' with an 'Add shipping zone' button. A descriptive text states: 'A shipping zone is a geographic region where a certain set of shipping methods are offered. WooCommerce will mat'. A table below lists the shipping zones:

Zone name	Region(s)
World Wide	Asia, Europe, North America, South America
New Zealand	New Zealand

For configuration settings, please refer to the relevant documentation provided.
