

EVERYTHING YOU NEED TO KNOW **GLOBAL SUMMIT**

VALENCIA, SPAIN, APRIL 25-27, 2023

THE ERA OF **SUSTAINABLE**
LOGISTICS

Powered by DHL

THE ERA OF SUSTAINABLE LOGISTICS GLOBAL SUPPLY CHAINS KEEP THE WORLD TURNING

And with the world changing faster and faster, supply chains must innovate to keep goods flowing and enable businesses to thrive while they operate sustainably.

As the world's leading logistics company, we know we are uniquely placed to bring our customers together with industry experts to work on innovative supply chain solutions.

The Era of Sustainable Logistics is our platform to do this, carving out time and space for collaboration and fresh thinking. Working in partnership we will develop new ways of working that will transform supply chains.

We strongly believe that in-person collaboration can open new connections, new possibilities, and new ways of thinking. This event is a place where we can come together to find the best way forward - for our industry and for yours.

Meet your peers across industries and borders and help ensure that the actions taken today are the right ones for tomorrow.

Let's keep the world moving, businesses thriving, and economies growing while also protecting our planet.

I look forward to seeing you in Valencia.

“TOGETHER
WE CAN HELP
ADDRESS THE
CHALLENGES OF
THE CLIMATE
EMERGENCY”

KATJA BUSCH
Chief Commercial Officer
DHL & Head of CSI

THE LOCATION

AN
AWE-INSPIRING
LEISURE
COMPLEX IN A
TRULY GORGEOUS
SETTING

VALENCIA, SPAIN

It's a city that takes sustainability as seriously as we do, showing other cities the way forward with pioneering approaches to offset its carbon footprint.

And what better venue to host our summit than the **Valencia City of Arts and Sciences**. It's an awe-inspiring leisure complex in a truly gorgeous setting, celebrating our incredible world and the cultural achievements of the people who live in it.

Valencia is an increasingly accessible, intelligent, and sustainable city. Committed to the Sustainable Development Goals, it is a pioneer in the world in measuring and certifying the carbon footprint of its tourist activity in search of actions to reduce and offset it.

Valencia was recently crowned the 2024 European Green Capital, thanks to its sustainable tourism and achievements in the fields of climate neutrality and inclusive green transition.

12:45		Networking Lunch
14:00		End of Event

INTERACTIVE EXPERIENCE IN 8 ZONES AND 25+ MASTERCLASSES

BUILDING

STRATEGIES FOR
SUSTAINABILITY

SCOPE

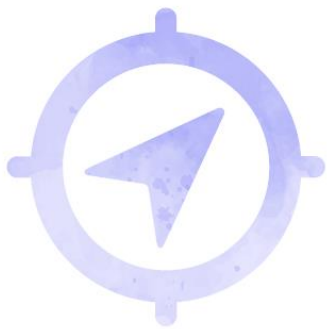

Understanding sustainability drivers
and developing adaptive strategies
in a dynamic context

MASTERCLASSES

- Building winning strategies for sustainability
- Addressing green consumers in times of instability
- Driving innovation for the next technology S-curve
- Running logistics as a value driver for sustainability

NAVIGATING

SUSTAINABILITY
GOVERNANCE

SCOPE

Understanding how ESG reporting
can help your organization
to differentiate itself

MASTERCLASSES

- Best practices in ESG reporting
- Understanding “Book and Claim”
- Tackling the Scope 3 challenge through Tier-n carbon management
- Supply Chain Risks in an ever-changing regulatory environment

REDUCING

CARBON EMISSIONS IN
THE SUPPLY CHAIN

SCOPE

Embarking on the journey to
decarbonize your supply chain

MASTERCLASSES

- Sustainable fuels: How sustainable are they and how to scale them?
- How to start your decarbonization journey – Case study & guidance
- Climate neutral warehouse – from requirement to reality
- Trucking decarbonization & infrastructure

LEVERAGING

DIGITALIZATION &
SMART SOLUTIONS

SCOPE

Digitally optimizing supply chains
in a tech-enabled world

MASTERCLASSES

- Calculate, share, improve – carbon accounting drives climate action
- Could AI be the differentiator for your sustainability strategy?
- How the networked ERP will enable your success in Sustainability
- Data analytics as an enabler for supply chain resiliency

PARTNERS

INTERACTIVE EXPERIENCE IN 8 ZONES AND 25+ MASTERCLASSES

DEVELOPING

NEW FORMS OF
CIRCULARITY

SCOPE

Unlocking new business opportunities
in a resource-constrained world

MASTERCLASSES

- Transitioning from linear to circular supply chains
- Unlocking new value in a resource-constrained world
- New circular business models - overcoming logistics barriers!
- Reusable E-Commerce packaging

LEADING

PEOPLE TOWARDS A
SUSTAINABLE FUTURE

SCOPE

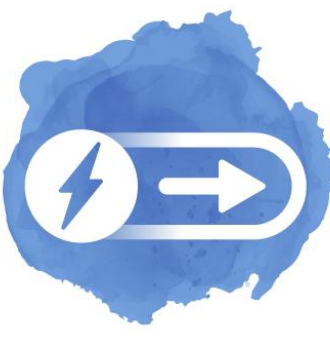

Empowering people to act in a
more environmentally responsible way
and leading your sustainability agenda

MASTERCLASSES

- How to build a high performing sustainability operating model
- Culture eats strategy for breakfast
- How Sustainability can attract and retain the workforce of the future
- DHL's Certified GoGreen Specialist Training

ENABLING

A WORLD POWERED BY
CLEAN ENERGY & MOBILITY

SCOPE

Exploring the transformation in the
energy landscape and its consequences
for mobility and supply chains

MASTERCLASSES

- Hydrogen value chains
- The new energy landscape
- Enabling the EV revolution within the supply chain
- Developing sustainable energy & mobility ecosystems

CREATING

VISION 2050

SCOPE

Inspire
Connect
Imagine

MASTERCLASSES

- How to have a liveable planet – for every child
Marieme Abderrahma Diallo, UNICEF and Dorte Andersen Friis, UNICEF
- How humans, algorithms & technology will transform last-mile delivery
Matthias Winkenbach, Research Director MIT Megacity Logistics Lab
- How floating cities will drive decarbonization efforts
Marc Chen, Co-Founder Oceanix
- What is the future of globalization
Steven Altman, NYU

PARTNERS

OVER 50 INSPIRING SPEAKERS
