

# TIME DEFINITE EXPRESS DELIVERY

## Providing cost-effective, trackable domestic and international distribution of medical devices and consumables

Business-to-business (B2B), business-to-consumer (B2C), and direct-to-patient delivery requires trust and reliability. Availability may impact purchasing loyalty for medical devices, spare parts, and medical consumables, so items must arrive on time.

### TYPICAL BUSINESS CHALLENGES

- Delivering on time to avoid stockouts & lost sales
- Handling all types of product
- Ensuring seamless cross-border flows
- Combining reliability with flexibility
- Achieving visibility & cost efficiency
- Accelerating billing & payment

## DHL SOLUTION

This DHL Express Time Definite solution provides delivery options for domestic and international shipments. It ensures seamless cross-border flows, reliable transit times, and extensive global reach – there are DHL Express drop-off and collection points in over 220 countries and territories.
