

NEW ENERGY CONFERENCE

POWERING SUPPLY CHAINS FOR THE ENERGY TRANSITION

10 - 11 Sept. 2025 | Cologne, Germany

EVENT OVERVIEW

Driving Innovation, Sustainability & Growth in the Energy Transition

Join us September 10–11, 2025 in Cologne, Germany for the New Energy Conference — an exclusive, one-of-a-kind gathering where the entire New Energy value chain converges.

From renewables and battery storage to EVs, hydrogen, and alternative fuels — this cross-industry forum connects leaders, innovators, and logistics experts shaping the future of the New Energy ecosystem.

What to Expect

- Engage with fellow decision makers and top industry experts to spark new cross-industry collaborations.
- Gain insights into cutting-edge trends and strategies transforming new energy logistics.
- Discover real world logistics solutions supporting renewables, battery storage and beyond.

EVENT LOCATION

The Energy Transition demands bold thinking—beyond limits

 **Kaiserstr. 2
53840 Troisdorf
Germany**

Set in DHL’s brand-new European Innovation Center, currently under construction and due to be completed before the event, this conference marks the first time its doors will open to an external audience—making it a truly exciting milestone. A place where bold ideas meet real-world solutions.

EPIC is more than a building—it’s a mindset. Built entirely from cross-laminated timber and powered by green technologies, it embodies innovation, sustainability, and ambition.

From future-shaping encounters to sustainable design, EPIC is where logistics meets possibility—and where the future of New Energy Logistics takes shape.

FAQs

Is this event open to everyone?

No – attendance is by invitation only.

Is there a fee to attend the event?

No – there is no delegate fee. Participation is free of charge for invited customer contacts. However, attendees are responsible for covering their own travel and accommodation costs.
