

NAVIGATING WHAT'S NOW & SHAPING WHAT'S NEXT

WELCOME TO “NOW & NEXT – A DHL LOGISTICS SUMMIT”

Building on the momentum of our global sector and innovation conferences, and the trailblazing ‘Era of Sustainable Logistics’ series, we’re proud to launch a new chapter — **NOW & NEXT – A DHL Logistics Summit** taking place **this October in vibrant Austin, Texas.**

This summit is designed as a dynamic platform where visionary leaders, decision-makers, and supply chain experts converge to pioneer the future of logistics — one that is smarter, more resilient, and truly sustainable. Together, we will confront today’s most pressing challenges: global trade complexities, climate urgency, and rapid technological change. And together, we will forge the supply chains that will power tomorrow’s world.

Expect a thoughtfully curated agenda, tailored regionally to reflect the unique opportunities and challenges across industries in the Americas. Engage in cutting-edge masterclasses, immersive topic zones, and forward-looking keynotes — all designed to inspire actionable ideas and bold strategies.

Our focus is clear:

- **Supply Chain Resilience & Diversification**
- **Digitalization & AI**
- **Sustainability & Decarbonization**

At a time of shifting geopolitical landscapes, evolving consumer demands, and sustainability imperatives, agility and purposeful decision-making are no longer optional — they’re essential. Join us to explore how to navigate these challenges with confidence and clarity.

NOW & NEXT – A DHL Logistics Summit
October 13 & 14, 2025 | Austin, TX

Be part of the conversation that's not just shaping the future of logistics, but also your role in it.

"Logistics is THE catalyst for building future-ready, resilient supply chains — driving long-term competitive advantages for businesses."

Katja Busch - Chief Commercial Officer DHL & Head of CSI

KEY TOPICS YOU WILL BE ABLE TO EXPLORE

3 TREND ZONES

RESILIENCE & DIVERSIFICATION

- **Increasing pressure** on global supply chains
- Mastering **short-term** supply chain disruptions
- Proactively enhancing **Security Resilience**
- Adapting Supply Chains to **long term** (geopolitical) changes
- Choosing your plus X **region & country location**
- **Insights into sector** specific supply chain changes

DIGITALIZATION & AI

- Transformative Potential of **Generative AI**
- **Advanced Robotics & Automation:** Seamless Integration into Supply Chain Processes
- Envisioning the **Warehouse of the Future**
- Harnessing **Digital Twin** Technology for Enhanced Operations
- Strengthening **Cybersecurity** with Cyber Risk Intelligence
- **Cloud Solutions:** Ushering in a New Era of Resiliency
- Unlocking Opportunities with **APIs**

SUSTAINABILITY & DECARBONIZATION

- **Frameworks:** Book & Claim and Carbon Reporting
- **Optimization Strategies:** Network, Mode, Route, and Load Efficiency
- **Integrated Solutions:** Air, Ocean, Road, Final Mile, and GoGreen Plus
- Sustainable **Warehousing** and Facilities Management
- Advancements in **Sustainable Fuels** & Hydrogen
- **Circular Solutions** and Eco-Friendly Packaging
- Cutting-Edge **Carbon Capture** & Storage Technologies

6 INDUSTRY ZONES

AUTO-MOBILITY

- Supply chain solutions along the **Electrification Value Chain**
- **New Mobility models** requiring innovative logistics solutions

ENERGY

- Supply chain solutions enabling the **New Energy Transformation**
- **Operational Excellence** in traditional energy segments

TECHNOLOGY

- **Supply chain adaptability** in volatile markets
- Logistics solutions for **high value infrastructure**
- Aftermarket solutions around **circularity**

E-RETAIL & FASHION

- Meeting emerging needs in **Fulfillment and Last mile** solutions
- Accelerate growth in **Circularity models & Recommerce solutions**

LIFE SCIENCES & HEALTHCARE

- **DHL Health Logistics** as platform to deliver next-level healthcare
- Operational excellence in **cold chain** and **medical devices** segments

ENGINEERING & MANUFACTURING

- Driving growth and innovation in **Aviation & Aerospace**
- Logistics for electrified **Mining & Construction Equipment**
