

# Same day delivery

MANAGING EXPEDITED ORDERING AND THE RELIABLE, RAPID SHIPMENT AND DELIVERY OF MEDICAL DEVICES AND SPARES PARTS

**Medical device manufacturers need rapid delivery of products and spare parts to meet exacting service level agreements and to support 'as-a-service' business models. On-time delivery is essential to avoid device downtime.**

## **Typical business challenges**

- Ensuring compliant, on-time delivery
- Handling different types of order
- Accelerating estimates & pickups
- Delivering direct to installation crews
- Controlling end-to-end processes

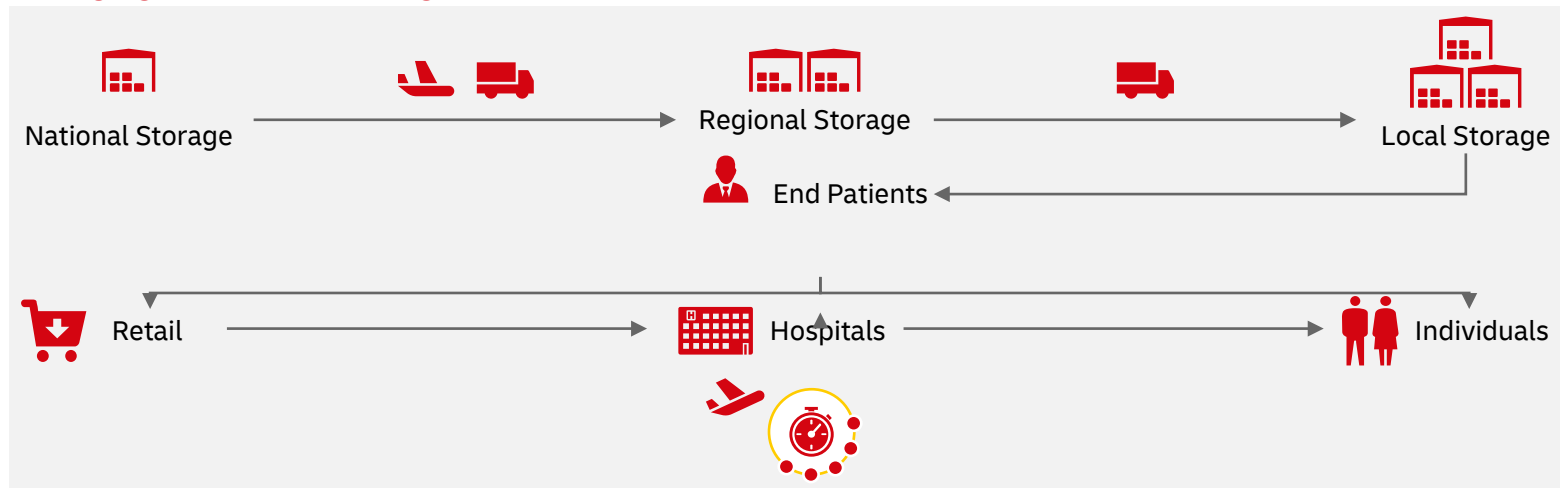

## DHL Solution

This premium, expedited process management solution – DHL Same Day – ensures fast ordering and the immediate international transportation of mission-critical medical devices and spare parts. It uses specialized couriers and DHL forwarding facilities located in more than 200 countries.

### Solving your business challenges

- **Ensuring compliant, on-time delivery** – Good practice (GxP)-compliant shipping solutions and fast delivery; very high (~99%) on-time delivery performance levels; after hours and on weekends (24/7/365); next-flight-out (NFO), hand-carry, and charter options
- **Handling different types of order** – Highly configurable; no size or commodity restrictions (includes hazardous materials and other dangerous goods); on-demand packaging solutions; incoterm independent
- **Accelerating estimates & pickups** – Expedited quotation and pickup within 60–90 minutes of request
- **Delivering direct to installation crews** – Able to deliver to engineers already deployed inside the hospital or other specified locations; safe handover at the right place and right time
- **Controlling end-to-end processes** – Comprehensive centralized management and control of all operations and information

# DHL sameday – Transport solutions & Services

## ***DHLSAMEDAY Jetline***

## ***DHLSAMEDAY Sprintline***

## ***WHITE GLOVE SERVICE***

### **Accompanied or unaccompanied shipment**

### **Urgent delivery by road**

### **Customer-centric Solution (White glove)**

DHL SameDay Jetline reaches all parts of the globe in the shortest possible time. When you need the highest protection for your shipment, chose our accompanied 'secure' option.

When there's a short distance between origin and destination and it's too close to fly, typically for transportation across country or within the same region or city, DHL SameDay Sprintline loses no time to deliver.

DHL SameDay offers an extended white glove service for those who need that extra peace of mind. This option offers an elevated level of care and attention for your shipment.

- Fastest ATA transit/pick up & delivery
- Next-flight-out approach
- Covering 170+ countries
- Also for overweight and oversized shipments
- Additional 'secure' option with on-board courier available

- Customized point-to-point ground transportation
- Optimizing road transport network when warranted by size, weight or distance

- Pre-conditioned Packaging (Ambient controlled, refrigerated, frozen and cryogenic (-196°C))
- Supply kits (Data Loggers, absorbents, 95kpa pressure bags, labels)
