Mexico – Truckers plan nationwide strike**

Dear valued Customer,

Truck drivers of the Mexican Alliance of Carrier Organizations will go on strike Tuesday and Wednesday, demanding more road security and better working conditions in the country.

The strike is scheduled to begin at 8 a.m. Central Time on Tuesday. It is expected to include blockades along main highways, potentially disrupting domestic and international freight shipments.

Please be prepared for delays, because of this incident.

Please reach out to your account manager or our customer service team in case of any questions or concerns regarding individual shipments.

Sincerely,
DHL Global Forwarding
