

HIGH VALUE TRANSPORTATION

DHL Supply Chain secures, reliable, cost-effective transportation of your high value goods in Brazil.

Cargo theft represents one of the major risks to the modern supply chain, with truck stops, parking lots and warehouses often targeted by criminals while goods are being transported. Globally, Brazil is one of the countries most affected by the problem. Incidents of cargo theft represented a loss of approximately 1.5 billion BRL in 2017. In 2018, the estimated total security expense was 17 billion BRL.

With the high value of goods being transported today, such as technology, life sciences, healthcare and other products, risk and costs can be reduced with the High Value Transportation solution offered by DHL Supply Chain, the global leader in the logistics industry.

FEATURES OF OUR HIGH VALUE TRANSPORTATION VEHICLES

- Designed as an armored, shielded structure
- Primary and Secondary tracking devices with immobilizers and sensors
- Best-in-class technology with CCTV system inside the truck and all round surveillance, enabling identification of potential car pursuit, and ignition triggered by facial recognition

DHL Supply Chain – Excellence. Simply delivered.

BENEFITS OF WORKING WITH DHL SUPPLY CHAIN

Reduces need for escorts

Our High Value Transportation solution has full insurance coverage, and outstanding capability, concentrating value and avoiding the cost of additional security.

Reduced costs

A reduction in the use of escort vehicles and the total number of trucks being used in your supply chain means cost avoidance in your transportation

Highly trained, expert drivers

As the world's leading contract logistics provider, the recruitment and training of our expert teams ensures that you can be confident in the quality of service provided by drivers who have additional security training.

Highest levels of information management and visibility

With our High Value Transportation solution combined with DHL's best-in-class control tower, risk management team, and support systems, DHL provides a unique solution for your products.

Our tailor made solution provides the flexibility that enables DHL and its customers to stay ahead of the market and trends.
