

MYSUPPLYCHAIN

YOUR ONE-STOP SHOP FOR
SUPPLY CHAIN DATA AND INSIGHTS

Turn supply chain insights into competitive advantage. MySupplyChain delivers integrated warehouse and transportation insights which are accessible online – anytime, anywhere.

WHAT IS MYSUPPLYCHAIN?

MySupplyChain is the DHL Supply Chain single entry point for warehouse and transportation tools and data.

Accessible anytime, from anywhere, when you are online. With near real-time, warehouse-level inventory and order tracking across your entire network, you can turn newly-available, end-to-end supply chain operations insight into competitive advantage.

COMPLEXITY SIMPLIFIED

- Single point of access
- One location for full global supply chain visibility in near real-time
- Inventory management
- Transportation tracking
- Operational reporting
- Document sharing
- End-to-end supply chain operations insight

Deliver results and empower yourself with supply chain performance insights that drive competitive advantage and continuous improvement.

INTEGRATE SUPPLY CHAIN FUNCTIONS SO YOU CAN MANAGE THEM MORE EFFECTIVELY

Track & Trace and Inventory

MySupplyChain provides near real-time visibility of warehouse and transport operations and allows you to manage your inventory remotely and securely.

With ETA (estimated time of arrival) updates and GPS (Global Positioning System) capability, you can have visibility of where your shipments are in our network.

Operational Performance

Dashboards can be tailored to enable a more proactive operations management approach.

Optimize your time and have all the information accessible for the whole team, so everyone can stay on top of things.

Operational Reporting

Quickly and easily create reports to help identify opportunities for productivity gains.

Data is always easily accessible for sharing without a wait.

Business Analytics

Collect and organize newly-available data for actionable business insights.

Integrated analytics can help generate efficiencies that give you an advantage over your competition.

Customer Service

Integrate customer service inquiries from email, phone, and/or web with automated workflows and alerts, ensuring effective and efficient responses.

Documents

A solution to keep all your documents in one place for easy searching, reviewing, signing and archiving.
