

DHL PARCEL INTERNATIONAL DIRECT EXPEDITED FROM CHINA TO UNITED STATES

It is expected that by 2018, up to 41 million American shoppers will spend close to USD80 billion a year¹ buying from international websites with forty percent of them buying from online sellers in China², making the US one of the most attractive places for Chinese sellers. DHL eCommerce can help you reach your products to US in a reliable and cost effective manner so your customers can shop without any hassle.

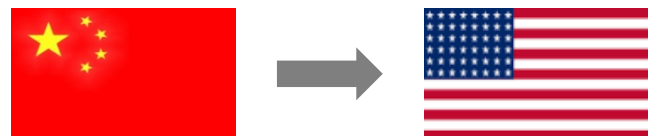

DHL Parcel International Direct Expedited provides you an end-to-end shipping solution to drive your e-business into the American market.

DHL's Integrated Domestic Network- Powering Up Your Deliveries

E-Commerce Made Easy

We know what it takes to grow and sustain your e-commerce business – we are the e-commerce specialist and offer solutions to drive your e-business into the American market

DHL Parcel International Direct Expedited is our reliable and efficient international shipping solution, offering all the advantages your e-commerce business needs to provide the best possible service to your customers in the US. Our direct-to-consumer solution ensures faster and more reliable shipping than conventional mailing options.

Our network covers right from China to every corner in the United States. Through our extensive coverage, we can deliver your orders from China to your customers' doorsteps in excellent condition. With this efficient solution, you will be able to seize the opportunities and exceed your customer satisfaction to grow your cross border e-business in the US.
