

GERMAN TOLL CHANGES 2019

Information about the toll changes in Germany
as of January 1, 2019.

DHL Freight – Excellence. Simply delivered.

GERMAN TOLL CHANGES

Since 1.7.2018, the truck toll has applied to all federal trunk roads in Germany. The extension of the toll to cover 53 000 kilometers of motorways and main roads helps the German government to improve the financing of a modern, safe and efficient traffic infrastructure in Germany.

As of 1.1.2019 the rates for vehicles with a gross weight of 7,5 tons or more will increase and that has a big impact on the cost for road freight shipments within, from and to Germany.

Vehicle category	7.5-12 t 2 axles	12-18 t 3 axles	More than 18 t 3 axles	More than 18 t 4 axles	More than 18 t 5 axles +
EURO 6	1.2	1.5	6.0	7.0	5.2
EEV / EURO 5	0.2	0.5	5.0	6.0	4.2
EURO 4	0.1	0.4	4.9	5.9	4.1
EURO 3	0.2	0.5	5.0	6.0	4.2
EURO 2	0.2	0.5	5.0	6.0	4.2
EURO 0 / 1	0.3	0.6	5.1	6.1	4.2

Increase of toll charges in Euro cents / km. Extracted from: www.svg.de, September 2018

WHAT COST IMPLICATIONS DOES THIS HAVE ON YOUR ROAD FREIGHT SHIPMENTS IN THE FUTURE?

The table on the left is showing the cost increase of most relevant vehicle types marked in red which represent a toll increase of approximately 38 % or 5,3 Euro cents / km compared to existing levels.

To continuously keep the high standard of service for our customers and to cover the cost increase beyond our control we need to increase the toll surcharge for all shipments within, from and to Germany. For more information on the valid toll surcharges, please contact DHL Freight sales.
