myDHLi

YOUR ONE-STOP PORTAL TO EXCELLENCE IN DIGITAL TRANSPORT LOGISTICS.

Boost your collaboration with customers, colleagues and partners.

FOLLOW + SHARE

myDHLi takes collaboration in the shipping industry to the next level by simplifying information sharing. Our portal connects and collects all your shipping data in one place, making it easy for you to follow your shipments and share the information with your customers, colleagues and partners. We give you full control.

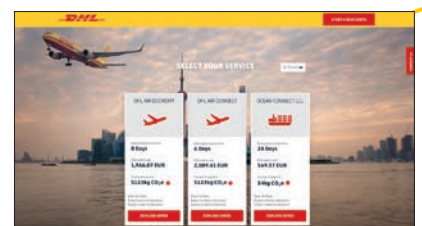

NOTIFICATIONS

myDHLi informs proactively about all major shipment milestones. It sends automatic notifications regarding significant changes to all stakeholders who follow shipments in myDHLi and, thus, reduces your daily workload. We know how important control is. That's why we make sure you are always in the loop.

Covering all your shipping needs across all modes of transport.

How you benefit from myDHLi:

- Easy to use
- Fast and accurate information at all times
- Full visibility over your shipments
- Allows collaboration on all levels with FOLLOW + SHARE function

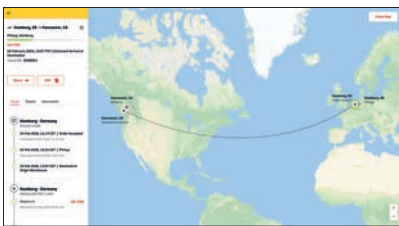

QUOTE + BOOK

myDHLi is your easy access to instant quotes and bookings. A platform that provides competitive rates and helps you choose the best mode of transport for your shipments. It also knows your CO₂ impact and enables you to achieve emission reductions. It provides you a full overview of all your quotes and bookings and even allows for quotations based on your contracted rates.

TRACK

With myDHLi you know where your shipments are, at all times. You are in control and able to react, as you have full visibility over your shipments in the past, present and future. We help you anticipate changes in delivery dates and avoid additional costs. From pick up until final delivery, all information is at your fingertips.

DOCUMENTS

myDHLi connects and collects all your relevant shipment information in one place - from quote details, to housebills and final invoices. It makes your life easier by saving you time when looking for documents with its easy-to-use search function.

ANALYTICS

Analyze your business with powerful dashboards. myDHLi provides you with transparency and meaningful insights regarding your logistics spend, volumes, customs activity, and service quality. A portal that puts you in the driver seat, allowing you to make data-based decisions and manage your supply chain.
