DEAR CUSTOMER

Welcome to the 2026 edition of the DHL Express Service and Rate Guide. If you are reading this, it means you have a need to move something, from somewhere, to somewhere else and you want it done quickly, securely and reliably. You have come to the right place – we are here to help you!

The world is more interconnected and more complex than ever before. Across industries, businesses are navigating geopolitical volatility and a host of other challenges. At the same time, their customers demand more reliable services with greater transparency and predictability as trade continues to move goods across borders and into their hands. In this environment, logistics has become more than just moving products from point A to point B. It is a critical enabler of growth and trust for companies. We understand the pressures you face, and our mission is to be more than a service provider – we aim to be a partner that helps you thrive!

One of the most pressing challenges of our generation is climate change. Transportation and logistics play a role in global emissions, and we recognize our responsibility to act. That is why **Sustainability** has been a core element of our strategy. From investing in electric delivery vehicles and Sustainable Aviation Fuels, to seeking clean energy and energy-efficient systems in our facilities, we are committed to reducing our carbon footprint and enabling you to participate in it – please ask us about the [DHL Express GoGreen Services](#).

Of course, sustainability is only part of the story. We continue to focus on **Digitalization** across all areas of our service. Predictive analytics to anticipate disruptions, a constant vigil for cybersecurity, and critically, [tools to navigate](#) more complex Customs requirements – our innovations are designed to give you speed, reliability, and peace of mind.

People remain at the core of everything we do. Behind every shipment delivered is a team of 116,000 Certified International Specialist logistics professionals all around the world committed to serving you with dedication and the highest possible expertise.

In the Philippines, we have invested PHP 457.3 million in the successful relocation of Cebu Gateway, while the ongoing relocation of Manila Gateway is estimated at PHP 622.8 million. Additionally, we are committed to electrifying our fleet with an estimated annual investment of PHP 26 million, alongside various infrastructure and capability enhancements to elevate our logistics operations and service delivery.

Looking ahead, we see opportunity! Global trade will continue, and your businesses can continue to grow through it. As your logistics partner, we are here to help you and all our 3 million customers unlock new markets and deliver to your customers with confidence – all while doing so in ways that protect the planet for future generations.

We are grateful for your trust and partnership. **Thank you** for allowing us to be part of your journey. How can we support your growth?

CLEAN OPERATIONS FOR CLIMATE PROTECTION

Leader in sustainable aviation

DHL Express GoGreen Plus is a dedicated solution to help businesses reduce the carbon emissions on a book and claim basis from air transports through the use of Sustainable Aviation Fuel (SAF). This is currently supported by three of the industry's largest collaborations with BP, Neste and World Energy.

In contrast to 'offsetting' – where businesses 'neutralize' their emissions through environmental programs – GoGreen Plus is 'insetting'. Insetting's impact is greater because it directly reduces emissions within a company's value chain, resulting in significant reductions in scope 3 emissions. Here is how you can get on board:

- With the **GoGreen Plus Basic model**, a fixed CO2e reduction (insetting) will be achieved on all your air express shipments.
- In **MyDHL+**, you can opt for GoGreen Plus and choose which shipments to invest in with SAF.
- Alternatively, choose a **Customized Offer** for a bespoke insetting plan.

In addition to GoGreen Plus, other sustainability efforts include:

Green product portfolio

Our GoGreen Plus service allows customers shipping TDI to inset their CO2 air emissions by up to **90%**.

Green last-mile and line-haul

Electrify **66%** of last-mile delivery vehicles.

Carbon neutral buildings

Design **100%** of all new buildings to be carbon neutral.

GREAT COMPANY TO WORK FOR ALL

IMPORT SERVICES

With the DHL Express Worldwide Import product, you can import shipments from over 220 countries and territories in the world. This is more than any other express delivery company can offer. What's more, customers in, say, the USA can order an import from China not just to the USA, but to any other destinations as well – we call this a Third Country shipment.

There is no need for local brokers or forwarders to get involved in any part of the process. You are in full control, and able to manage all aspects of your imports in a very simple way.

If you need a faster delivery, our DHL Express 12:00, DHL Express 10:30 and DHL Express 9:00 are available for import as well. You can order an import from another country to be delivered to your country or any other destination. You will have one account number, one invoice in a single currency and a fixed price that means you know exactly what you will pay.

OPTIONAL SERVICES

[View charges](#)

DHL Express offers a wide range of optional services – from non-standard deliveries and billing options to emission-reduced shipping.

Saturday Pickup

In countries where Saturday is not a normal working day, DHL can arrange an ad-hoc pickup of smaller shipments up to 25kg. The service is available at selected postal locations only.

Saturday Delivery

We offer Saturday delivery services to key cities in more than 70 countries.

Dedicated Pickup

If your business needs a dedicated vehicle to collect unusual shipments, or a pickup outside normal business hours, we can arrange this for you.

Dedicated Delivery

On customer request, an immediate or non-routine, once-only delivery of a shipment within a normal working day or a holiday that involves a specific vehicle such as tail lift truck or more than one courier.

Receiver Paid

This service allows non-account Customers to arrange and pre-pay an import shipment door-to-door. [MyDHL+](#) will guide the importer through the entire shipping process from the pickup at origin till delivery at destination. The service is Door-to-Door and thus equal to IMP with all its available shipping options. Import duty and tax is collected as per DTU standard process whilst the transport service is pre-paid usually via Credit Card.

GoGreen Plus – Carbon Reduced

When selected, DHL will reduce (inset) CO2 emissions from air transport through the purchase of Sustainable Aviation Fuel (SAF). SAF can reduce lifecycle carbon emissions by up to 80%

compared to traditional jet fuel. GoGreen Plus – Carbon Reduced service supports Scope 3 emission reductions in alignment with the Science Based Target initiative. The process is audited annually by SGS (Société Générale de Surveillance) to ensure compliance with regulations and standards. Alternative reduction levels and CO2 emission reports are available on contractual basis only.

Shipment Insurance

We recommend this comprehensive protection for your valuable or personal shipments, giving you peace of mind in the unlikely event of physical damage or loss. The service is subject to specific limitations and exclusions as described in our [Terms and Conditions](#).

Extended Liability

If you are sending valuable documents such as passports, visa applications or regulatory certificates you can extend coverage and compensation beyond the DHL standard liability described in our [Terms and Conditions](#). In the event of full or partial loss to a document shipment, a fixed compensation will be paid regardless of the replacement cost of the document.

Shipment Preparation

This is a convenient, fast and reliable service for seasonal or irregular shipments that require extra resources for their preparation. DHL manages the entire process of waybill preparation, content selection, labeling and packaging, then sends the shipments to the designated addresses.

Printed Invoice

This service is for customers who require a paper invoice where e-billing is the agreed standard. This service provides flexibility for a different invoicing method than what is already agreed.

DUTY BILLING SERVICES

Duty Tax Paid

DHL can arrange for the shipper or a third party to be billed for any duties and taxes payable at destination, rather than the receiver of the shipment being billed. Charges apply whenever duties, taxes or other regulatory fees occur, and shipper has requested that those are to be billed outside of the destination country.

Duty Tax Processing:

Account Customers

DHL will accelerate the customs clearance initiating the payment process of duty and tax charges relating to a shipment. The receiver is invoiced for the duty and tax amount, allowing payment to be deferred until a mutually agreed date.

Duty Tax Processing:

Non-Account Customers

Applies when DHL processes import duties, taxes, or other regulatory charges on behalf of customers who do not hold a DHL account number.

OPTIONAL SERVICES

View charges

Change of Billing

This applies when a customer requests a change of defined billing information on an already issued invoice, which will result in a reissuing of the invoice and, in case of an account change, crediting of the old account and debiting of the new.

Verbal Notification

Customer Service will contact you by phone and provide verbal updates on agreed key transport events or incidents with a potential impact on transit time.

Packaging Supplies

Charges apply for all DHL standard packaging items including polybags provided in bulks or stacks.

Neutral Delivery

This service allows for the delivery of any shipment, without its value being shared or exposed to the receiver. DHL will ensure any paperwork exposing the value of the goods is removed from the shipment prior to delivery.

Hold for Collection

On shipper request, a shipment is held at the default DHL delivery facility at destination for consignee collection, rather than attempt a delivery at the receiver’s address. The service is booked through Customer Service or supporting shipping tools. The destination will notify the receiver when and at which facility the shipment is ready to collect. A consignee cell phone number is mandatory.

Verified Delivery

On shipper request, DHL will verify the delivery of a shipment to the authorized receiver, through a unique authentication, in form of a QR code. Contractual agreement required.

Residential Address

Customers shipping to a home or private residence can activate specific delivery options by designating the delivery address as residential. For such shipments, DHL will proactively notify the receiver via email or SMS about the shipment’s progress. Receivers can then select the most suitable delivery option via On Demand Delivery.

Direct Signature

If you are sending sensitive documents or high value contents you can request DHL to obtain a direct signature from the consignee or a representative at the delivery address. DHL will ensure your shipment is not re-directed, or delivered at an alternative address.

Adult Signature

Delivery of a shipment to an adult. DHL will obtain a delivery signature from an adult at the stipulated delivery address.

No Signature Required

On request, DHL is authorized to leave the shipment in a designated place without proof of delivery signature.

SURCHARGES

[View charges](#)

In order to maintain a consistently high level of service, in specific circumstances DHL Express levies a surcharge for exceptional activities, ensuring that these surcharges are fair for all of our customers.

Non-Stackable Pallet

This fixed surcharge is applied to every pallet within a shipment that cannot be stacked, either on request by the shipper, or because of its shape, content or packaging. This surcharge does not apply to pallets below 25kg.

Overweight Piece

A fixed surcharge is applied to every piece, including a pallet that exceeds a scale or volumetric weight of 70kg.

Oversize Piece

This fixed surcharge applies to every piece, including a pallet, if its longest side exceeds 100cm or its second-longest side exceeds 80cm. Does not apply to pieces already subject to Overweight Piece surcharge.

Non-Conveyable Piece

This surcharge applies to any shipment piece that meets one or more of the following criteria:

- Has an actual weight between 25kg and 70kg
- Is not fully enclosed in an outer shipping container
- Is packaged in materials other than corrugated cardboard, such as metal, wood, leather, hard or soft plastic, or expanded polystyrene foam
- Is wrapped in shrink wrap or stretch wrap
- Has a round or cylindrical shape, such as buckets, cans, drums, tires, or barrels
- Includes wheels, handles, or straps
- Has the potential to become entangled with or cause damage to other packages or the handling systems

Does not apply to pieces already subject to the Overweight or Oversize Piece Surcharge.

Remote Area

This surcharge applies when a shipment is collected from or delivered to a location that is distant or difficult to serve.

Fuel Surcharge

The jet fuel surcharge will be based on the daily average spot prices for U.S. Gulf Coast (USGC) kerosene-type jet fuel, as

reported by the U.S. Department of Energy between third week release of prior month to third week release of actual month.

The diesel fuel surcharge will be based on the daily average spot prices for U.S. Gulf Coast (USGC) Ultra-Low-Sulfur No. 2 Diesel Fuel, as reported by the U.S. Department of Energy between third week release of prior month to third week release of actual month.

For example, the daily average price for fuel from 18th April to 15th May is used to determine the applicable surcharge in June.

The fuel surcharge applies to the transportation charges and to the services and surcharges (where applicable), as set out here: [mydhl.express.dhl](#).

DHL reserves the right to change the fuel surcharge index and table with or without notice. Both the amount and duration of the surcharge will be determined at DHL's sole discretion.

Demand Surcharge

One or more Demand Surcharges will apply to shipments during a period of high demand. A period of high demand is to be determined by DHL at its own discretion but may include a time of high demand for shipping services or a period with high operational cost. Details regarding the application of Demand Surcharges are set forth at [mydhl.express.dhl](#) and will be subject to change upon prior notice. Demand Surcharges apply cumulatively if a shipment and/or individual pieces meet more than one of the specified criteria. Demand Surcharges apply in addition to the rates and any other applicable charges.

Emergency Situation

A temporary surcharge, which allows us to cover operating cost increases due to an emergency situation out of DHL's control. Change in market dynamics and air capacity availability is reflected through regular price adjustments. The charge will be applied pro rata based on the chargeable weight (invoiced weight) of a shipment.

Excepted Quantities

This fixed surcharge is applied when the handling and transportation of shipments involves substances and commodities that are in Excepted Quantities in compliance with IATA Dangerous Goods Regulations. Contractual agreement required.

Dry Ice UN1845

A surcharge is applied when the transportation of shipments involves handling Dry Ice UN1845 as a freezing agent for non-dangerous goods such as diagnostic specimens. Contractual agreement required.

Biological Substance UN3373

Shipments containing Biological Substances Category B (UN3373) or genetically modified organisms as per UN3245 are only accepted in combination with DHL Medical Express. Contractual agreement required.

Lithium Batteries Section II

Shipping Lithium Batteries *with* equipment

A service charge will be assessed on Lithium-Ion and Lithium-Metal batteries **with** equipment. Packaging must be compliant with the appropriate IATA Packing Instruction (PI): 966 for Lithium-Ion and 969 for Lithium-Metal, Section II respectively. Accepted from approved shippers only.

Shipping Lithium Batteries *in* equipment

Shipments containing Lithium-Ion or Lithium-Metal batteries **in** equipment are accepted only in compliance with the appropriate IATA Packing Instruction (PI): 967 for Lithium-Ion and 970 for Lithium-Metal, Section II respectively.

DHL **will not accept** any shipment that is known or suspected to contain defective or damaged batteries.

Full Dangerous Goods

A surcharge is applied per shipment when the transportation of shipments involves handling substances and commodities classified as fully regulated in accordance with the IATA Dangerous Goods Regulations. Contractual agreement required.

Consumer Goods ID8000

A surcharge is applied for shipments containing consumer goods such as perfumes, aftershaves, aerosols, nail varnish and prescription medicines as covered by the IATA ID8000 section and packed in a form intended for retail sale and shipped to private individuals (B2C). Contractual agreement required.

Address Correction

A fixed surcharge is applied per shipment when the destination address provided by the Shipper is incomplete, outdated or incorrect and DHL is subsequently unable to deliver the shipment. DHL searches and determines the correct address to complete the delivery.

Data Entry

A surcharge applies if the shipping label is not correctly completed or has not been produced electronically according to DHL standards and therefore requires manual data entry by DHL.

Security Charges

Additional surcharges may apply when shipping to or importing from a destination country where DHL is operating at elevated risk due to continuous state of war, civil unrest, or continuous threats from terrorism (**Elevated Risk**), or when shipping to or importing from a destination country that is subject to trade restrictions imposed by the UN Security Council or by national legislation such as the European Union or the US Office of Foreign Assets Control (OFAC) (**Restricted Destination**).

CUSTOMS SERVICES

[View charges](#)

Navigating the customs landscape is made easier by DHL’s extensive knowledge and experience of both standard and non-routine customs-clearance processes. Get answers to many of your questions with our new online tool, My Global Trade Services (MyGTS), which will help you expand across borders – and concentrate on your core business.

Non-Routine Entry

Applies when shipments are subject to non-routine clearance procedures, due to their value, weight and/or commodity as defined by destination Customs Authorities. May also apply in selected countries where DHL is legally obliged to outsource formal clearance entries to a licensed third party broker.

Clearance Processing

Applies where additional cost is incurred for importing shipments in alignment with government agency requirements.

Permits and Licenses

To accelerate import of selected controlled commodities, such as medical devices, pharmaceuticals, computer monitors, laser devices, cosmetics, eyeglasses, food and food products, DHL is required to file specific information in order to obtain the required import permits or licenses.

Customs Physical Intervention

The arrangement of a non-routine physical Customs inspection of a shipment involving either a full or partial unload. To include the marking or mutilation of samples.

Bonded Storage

Storage charges apply when the shipment cannot be released by customs. Charges take effect three calendar days after the freight arrival date. The charge applies to the duty and taxes payer.

Multiline Entry

Charges apply when more than five lines are recorded on the customs clearance, for example with different commodities or different countries of manufacture.

Post Clearance Modification

If requested by customs authorities or the importer/exporter, DHL may add or modify data declared to customs authorities for clearance purposes. This includes data such as declared values and classification of the goods and importer details, based on documentary evidence gathered from or confirmed by the importer or exporter.

Release to Broker

On importer request, DHL will transfer the shipment and related customs documentation to the customer’s nominated broker for clearance and last mile delivery.

Broker Notification

On importer request, DHL will provide the necessary paperwork to the customer’s designated broker to perform the import clearance and resume the delivery to the final destination once the clearance is completed. DHL is subsequently not responsible for the timeliness of the submission to customs or for the release of the shipment.

Other Government Agency

At request, DHL will arrange the completion of Veterinary, Health or Phytosanitary controls at the First Point of Entry in a country or a Customs Union, typically required when importing animal products, plants, seeds, or pharmaceutical products.

Clearance Authorization

Applies when the designated importer has specifically requested to be contacted by DHL before customs clearance is initiated. Contractual agreement required.

Bonded Transit

Bonded Transit applies to both export and import shipments whenever DHL is required to open, manage or report any form of transfer under bond.

Temporary Import Export

On customer request, DHL facilitates the temporary export and subsequent re-import of goods from the origin country, or the temporary import and later re-export of goods at the destination. These services are typically provided for purposes such as repairs, testing, exhibitions, or similar activities, and are carried out in compliance with customs regulations through the submission of all required documentation and adherence to the relevant clearance procedures.

Preferential Origin

On shipper request, the preparation or provision of a Certificate of Origin/Proof of Preference or other similar forms by DHL to certify the goods in a particular export shipment have been produced, manufactured or processed in a particular country allowing preferential rates of duty to be claimed at destination and/or compliance with trade barriers. Common examples are EUR1 and ATR.

Export Declaration

Applies in countries where an export declaration is required for shipments containing controlled commodities or exceeding a certain value threshold or weight. Where automated export systems are available to the public, shippers may avoid the charge by submitting the export declaration online. In case of IMP billed shipments DHL will submit the export declaration in order to accelerate the export at origin and pass the charge to the payer's account.

Preparing Your Shipment

Packaging Your Shipment

Paying for Your Shipment

PREPARING YOUR SHIPMENT: AS EASY AS 1-2-3

1 Shipment weight

- Please weigh and measure your shipment.
- If you are sending a large but lightweight shipment, where its volumetric (dimensional) weight exceeds its actual weight, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method. To calculate the volumetric weight of your shipment, simply multiply the length by height by width in centimeters, then divide the total sum by 5,000 for each piece in the shipment.
- Any piece in the shipment may be re-weighed and/or re-measured by DHL to confirm this calculation.

2 Documentation required: waybill

- All shipments sent with DHL Express need to have a fully completed DHL waybill or label securely attached to each piece. This will enable the successful movement of your shipment through the DHL network. Each waybill or label is individually numbered to allow you to track your shipment from collection through to delivery.
- Your shipment may also need to be accompanied by customs documentation, such as a commercial or proforma invoice, as well as additional paperwork depending on the contents and value of the shipment and the country you are sending to.

3 Documentation required: invoice

- A commercial or proforma invoice is required when sending non-document shipments to countries and territories outside your origin country or customs union. This is essentially a declaration containing all the details of a transaction and is used by customs authorities to assess if duties or taxes are payable.
- A commercial invoice is used when goods are part of a commercial transaction or intended for resale.
- A proforma invoice is used when sending goods of no commercial value (for example, when sending samples).

Below is an **example** of an invoice template with **key data elements** required for a successful customs clearance, which you may leverage if you provide your own Commercial/Proforma Invoice (using your own letterhead).

Additional information may be required depending on regulatory requirements, so please research the key export requirements of the origin country, import requirements of the destination country, and/or request regulatory advisory from Tax/Legal advisors.

In addition to providing the **invoice electronic soft copy** (e.g. PDF file), you must also provide the **complete and accurate electronic invoice data** to DHL. PACKAGING YOUR SHIPMENT

To ensure that your shipments travel safely and securely through the DHL Express global network, it is important that they are packaged and labeled correctly.

Packaging guidelines

- If you are re-using envelopes or boxes, please ensure that old labels and markings are removed
- Securely fix a waybill to each piece in your shipment. The waybill can be thought of as the shipment's airline ticket and it will delay delivery if it becomes separated from your shipment
- The barcodes on the waybill are scanned at numerous points during your shipment's journey. Please ensure the barcode is flat and not covered by tape, shrink wrap or strapping
- Place a waybill on the top or side of each piece in your shipment and please ensure it does not overlap the corners or edges of boxes

- Use adequate protective wrapping for fragile or delicate items and ensure they are packed as far away as possible from the corners of boxes
- To prevent injury to our employees, please pay special attention to the packaging of sharp items. There should not be any possibility of the contents piercing the packaging
- Any individual pieces over 70kg should be placed on a pallet. If you are sending a multi-piece shipment, it is not necessary to place the individual pieces on a pallet unless they exceed 70kg. For example, a shipment comprising four 25kg pieces does not have to be placed on a pallet

DHL packaging

We offer a range of high-quality DHL-branded packaging items, suitable for shipping items of all shapes and sizes.

The items available include:

- Polybags
- Cardboard document envelopes
- Boxes in a range of sizes

For more information please refer to the Packing Guide available on mydhl.express.dhl.

Prohibited and Restricted Commodities

Before you ship with DHL Express, visit mydhl.express.dhl to check whether any of your items are prohibited or restricted.

PAYING FOR YOUR SHIPMENT

You can pay for DHL Express services either directly or by bank transfer. You can open an account with DHL Express to pay via bank transfer; and all account customers receive invoices on a pre-agreed basis. For more details, please get in touch with a Customer Service Advisor at your local DHL Express office or go to mydhl.express.dhl.

How to Ship with DHL Express
Digitalization
Zones and Rates

Digitalization is one of the most important trends impacting logistics, and it is one of the key pillars of DHL Group's strategy. Through digitalization we bring benefits for our customers, our operations and our own people.

We invest continually in market-leading technologies to help our customers to manage and monitor shipments, create shipping labels, get quotes, schedule courier pickups, connect with us and more. Digitalizing our operations provides more transparency, allowing us to better anticipate and meet our customers' needs.

MYDHL+

MyDHL+ re-imagines the way the shipping business does business, by combining the tools and services our customers use most. With its mobile friendly and intuitive interface, customers can now import, export, schedule a pickup, track shipments and pay bills more quickly than ever – all in one visit, with one password and zero headaches. MyDHL+ makes it incredibly easy to navigate the complexities of international shipping.

ON DEMAND DELIVERY

DHL's On Demand Delivery tool keeps receivers informed of shipment progress, allowing them to reschedule, reroute, release or conveniently collect from a DHL Service Point. It is an innovative, easy-to-use, mobile-friendly service, especially for residential deliveries.

Designed to enhance the online shopper's experience, the service is available globally, meaning consistent service standards and a harmonized user experience.

DIGITAL TRUST

Logistics requires transferring data and content around the world and we embrace a responsibility to do this securely. Our standards led by our Binding Corporate Rules and by our [Data Privacy Policy](#) apply throughout the DHL Group and are approved by the Supervisory Authorities. We maintain a comprehensive [Information Security and Data Protection](#) approach based on ISO/IEC 27001:2013 and GDPR, to ensure a high standard when managing customer information assets and personal data. We aim to provide a rapid response to any security incident via our 24x7 Cyber Defence Centre (CDC) with global coverage and our global DPO community.

DHL Group acts as controller in respect of any personal data it receives from customers and holds to effectively provide transportation services and in regard to the delivery of any shipments or documents that it processes to perform its contractual obligations. DHL Group will act as a data controller when an individual is executing their rights under privacy legislations.
