FUEL AND ROAD SURCHARGE

for the current amount of surcharge go to dhlcommerce.pl

CHARGES FOR ADDITIONAL SERVICES AND/OR SURCHARGES

more information on pages 2–3

VAT

at the applicable rate

DESCRIPTION OF THE SERVICE

Weight and dimensions of each item in a shipment (including packaging):

- “Pallet” term means goods placed on a pallet with dimensions: 120 x 80 cm, 120 x 100 cm, 120 x 120 cm. The pallet is a single item of shipment, provided that 120 x 100 cm pallets and 120 x 120 cm are treated as a non-standard item.
- The maximum height of the shipment is 210 cm (including the pallet). The weight limit of the goods including the pallet is 1,000 kg. The weight and dimensions of the pallet/package are included in the weight and dimensions of the shipment elements.
- Maximum weight of a shipment 2,500 kg.
- Palletized shipments being sent to a single consignee and weighing over 2,500 kg, or shipments consisting of more than 5 pallets, can be processed on separate terms upon consultation with the DHL eCommerce Customer Service Department. If shipments containing more than 5 pallets are to be sent to a single consignee without prior consultation with the DHL eCommerce Customer Service Department, the time frame for delivering each subsequent shipment beyond the first shipment will be extended: (a) if delivery is to be made on the next business day – by one business day or more, depending on the number of shipments sent; (b) if delivery is to be made within two business days – by two business days or a multiple thereof, depending on the number of shipments sent. DHL eCommerce will determine the order of deliveries.

Pick-up and delivery:

- In areas accessible by delivery trucks the service is performed on ramp to ramp.
- Pick-up and delivery involves placement of the shipment and its removal from the open load-carrying body¹. Additional loading and unloading activities are the customer’s responsibility.
- Shipments are typically collected from Monday to Friday and delivered on the next business day or within 2 business days².
- A request for a DHL eCommerce courier to collect a shipment can be placed via online tools provided by DHL eCommerce or by phone with the DHL eCommerce Customer Service Department. Regular pick-ups can be scheduled upon prior agreement with a DHL eCommerce Sales Representative.

Method of calculating of the charges:

- If the contract is concluded according to the pallet price list, the charge for all shipments containing only elements on pallets with the following dimensions: 120 x 80 cm, 120 x 100 cm, 120 x 120 cm is calculated according to the pallet price list.
- There is an additional charge for each non-standard item.
- Calculated for each item is the volumetric weight according to the following conversion rate: [length (cm) x width (cm) x height (cm)] / 4,000 or 1 m³ of the shipment = 250 kg. The rule is to select the greater weight (actual or volumetric).
- The price of a shipment is calculated after adding up the greater weights of each item.

¹ This does not apply to pick-ups and deliveries carried out using the following vehicles: truck-tractor with an articulated trailer, car with an articulated trailer with a loading capacity of 24 t, car without a trailer with a loading capacity of 5 t or higher.

² For more information about the time of delivery offered, please contact the DHL eCommerce Customer Service Department.

All prices are in PLN and will be increased by value-added tax at the applicable rate.

To learn more about the services, go to dhlcommerce.pl or contact the DHL eCommerce Customer Service Department.

SEASONAL CHARGE

Charge that DHL eCommerce may apply during the parcel peak period between 1 November and 31 December each year. The amount of the seasonal charge will be published on the **dhlecommerce.pl** website, indicating its amount and the exact validity period.

The maximum seasonal charge shall for shipments with items weighing over 31.5 kg not exceed PLN 16

CONTRACTUAL PENALTY FOR THE SHIPMENT OF DANGEROUS GOODS

DHL does not accept for transport shipments containing dangerous goods and goods whose transport is prohibited pursuant to applicable legislation (e.g. corrosive, radioactive products, prohibited by law, including drugs).

If, in the course of transport, it is found that the shipment contains any concealed dangerous goods or goods prohibited by law, the Customer will be obliged to pay a contractual penalty to DHL in the amount of PLN 1,200.00. Payment of the penalty does not deprive DHL of the right to claim damages in excess of the penalty on general principles.

Charge: **PLN 1.200**

The company reserves the right to introduce special additional charges as a result of sudden price changes that influence the cost of transportation (fuel prices, taxes, etc.).

¹ Not applicable to Consumers.

² Previously known as a FUEL SURCHARGE.

All prices are in PLN and will be increased by value-added tax at the applicable rate.

More information at **dhlecommerce.pl** and in the DHL eCommerce Customer Service Department.
