

Fuel surcharge applicable to road freight services, valid as from 1st January, 2026

A fuel surcharge will be added to the basic shipment transportation cost (before value-added services costs). It is applicable for all road freight services. Based on the fluctuation of fuel costs¹, the fuel surcharge will be adjusted accordingly each month, with the surcharge index published in advance, based on the net fuel price published by PKN Orlen (<https://www.ornel.pl/pl/dla-biznesu/hurtowe-ceny-paliw>) and net fuel price published by EU weekly oil bulletin (https://energy.ec.europa.eu/data-and-analysis/weekly-oil-bulletin_en).

Due to the sharp increase in fuel prices, as of 08 March 2026 the EU Bulletin and Orlen indices will be adjusted weekly, based on fuel prices from the week preceding the change.

DHL Freight (Poland) Sp. z o.o. reserves the right to change the fuel surcharge index and table without notice. Both amount and duration of the fuel surcharge will be determined at DHL's sole discretion.
