

DHL VALUE ADDED SERVICES - BUSINESS CUSTOMERS

CUSTOMISE YOUR DELIVERIES

Does your shipment have to arrive by a certain time? Indoor delivery or pick-up at terminal? Help to unload or no help at all? Our value added services mean you get exactly the DHL you need.

BUSINESS CUSTOMERS

Whatever the size of your business or the size of your consignment – from a small parcel to larger PTL/FTL shipments and more – we can help you. Our value added services make it easy to quickly and smoothly adapt our transport solutions to the needs of your business.

At the start of this presentation, you will find a summary of all our value added services for deliveries to business customers. Under each service, you can read about how it works and practical information, such as booking, price and combination rules.

Finally, we would like to remind you that all our value added services are covered by our “Product specific terms and conditions”. For more detailed information about each service, see the separate document “DHL Product specific terms and conditions – domestic”.

If you are unsure about anything, you are always welcome to contact our Customer Service.

BUSINESS CUSTOMERS

FREIGHT COST

There are four factors that influence the total price of our deliveries. How it works: Firstly, all of our services have a freight price, plus a fuel surcharge. Other surcharges can then apply for delivery to certain places or for dangerous goods, for example. The price is also influenced if you choose to customise your transport with our value added services, such as Skicka grönt (Go Green), Indoor delivery or Evening delivery.

Finally, there are fees that can be avoided by ensuring that all tasks are completed correctly. If you are unsure of anything, you are always welcome to contact our Customer Service.

OUR OPTIONS FOR BOOKING VALUE ADDED SERVICES:

E-SERVICE

Book online at dhl.se/freight, DHL Multishipping or via an approved TA system or EDI.

DHL CUSTOMER SERVICE

For bookings and personal service, you are always welcome to call our Customer Service on 0771-345 345.

BUSINESS CUSTOMERS

THIRD PARTY FREIGHT PAYER

WE INVOICE A THIRD PARTY – NEITHER THE CONSIGNOR OR CONSIGNEE

We invoice a third party – neither the consignor or consignee. In a transport chain, there are occasions when a “Third party freight payer” is useful. An example of this is when neither the consignee or the consignor are responsible for paying the freight.

In a transport chain, this value added service is often used by a party acting only as the stockholder.

BUSINESS CUSTOMERS

COLLECTION AT TERMINAL

LET THE CONSIGNEE COLLECT THEIR SHIPMENT FROM OUR TERMINAL WHEN IT SUITS THEM

Instead of DHL delivering the shipment, the consignee has the option of collecting directly from one of our terminals. This service is popular with consignees who are often travelling or otherwise unavailable. Notification is included in the service, and as soon as it has been sent, the shipment is available for collection during the daytime.

BUSINESS CUSTOMERS

NOTIFICATION

WHEN YOU WANT US TO CONTACT YOUR CONSIGNEE TO ARRANGE A DELIVERY TIME

With Notification, the consignor ensures that the consignee will be on site at the proposed delivery time. This is an easy way for both parties to minimise unnecessary costs connected with deliveries.

TIPS!

Would you like to further ensure your delivery? Combine Notification with Pre-advice by driver.

BUSINESS CUSTOMERS

GUARANTEED SERVICE

G7, G10 AND G12

Deliver to the consignee before a specified time. If you want your shipment to be delivered to the consignee before a specific time, we offer guaranteed services. In the unlikely event that we do not deliver in time, we will pay back the cost of shipping and the value added service.

The times we can offer delivery before are:

G7	Delivery before 07.30
G10	Delivery before 10.00
G12	Delivery before 12.00

OBS! See our time table at www.dhl.se/freight for geographical coverage.

BUSINESS CUSTOMERS

INDOOR DELIVERY

WE DELIVER DIRECTLY INTO YOUR CONSIGNEE'S PREMISES

Sometimes you need help beyond the loading bay or the street. We can handle it. How Indoor delivery works:

If the package does not exceed an actual weight of 25 kg and it is possible for one person to handle, we offer delivery from the vehicle into the property, mall, etc.

For goods loaded on a pallet, we offer to drive it in using a pallet truck.

BUSINESS CUSTOMERS

PRE-ADVICE BY DRIVER

OUR DRIVERS CONTACT THE CONSIGNEE BEFORE DELIVERY

With Pre-advice by driver, our driver calls the consignee approximately 15-30 minutes before delivery. This gives both you and the consignee more control over the delivery.

Pre-advice by driver is often used when shipments are delivered to places where many people are difficult to reach or are moving around, such as construction sites.

TIPS! Combine “Pre-advice by driver” with “Notification” for even more control over the delivery.

SKICKA GRÖNT (SEND IT GREEN) WITH DHL

SKICKA GRÖNT (SEND IT GREEN) ENABLES YOUR COMPANY TO REDUCE YOUR ENVIRONMENTAL IMPACT IN A SIMPLE AND EFFICIENT WAY

By selecting SKICKA GRÖNT, the customer can reduce the environmental impact of their transport and boost development of the transport sector right here and now. The revenues are used to invest in vehicles with cost driven environmental technology. Something that will guarantee environmental benefits within our Swedish transport network.

With SKICKA GRÖNT, we can work with you and your customers to seriously reduce emissions of carbon dioxide, where it would otherwise be impossible without your contribution.

Each time you or your customers book SKICKA GRÖNT, you are buying shares in our overall capacity of CO2 reducing freight. The shares are not linked to any specific route. Instead, SKICKA GRÖNT enables us to replace a fossil transport section with vehicles running on renewable fuels, where they will have the most impact.

The whole process, from production to sales, is verified by an independent party.

TIME DEFINITE LOADING OR UNLOADING

WHEN YOU NEED TIME DEFINITE LOADING AND/OR UNLOADING FOR YOUR PTL/FTL GOODS

Sometimes a time definite loading or unloading is required. This is the perfect value added service in environments with a high flow of goods – for example if you (or your customers) are a stockholder or work in the construction industry.

More specifically, this service means that a shipment is loaded or unloaded at an agreed time, or within an agreed time interval on a specific day.
