

Case Study: SAMEDAY JETLINE

Emergency transportation of replacement parts for malfunctioning medical equipment

DHL SAMEDAY JETLINE picks up the necessary parts and goes directly to the airport. It is an emergency transport solution that aims to minimize lead time by loading the parts onto the earliest departing flight. Upon request, the passenger can also hand-carry the parts.

- Serving 170 countries and territories
- Customer service is available 24 hours a day, 7 days a week, 365 days a year for emergency orders
- Select and load on the flight that arrives at the destination in the shortest time, such as a direct flight (NFO)
- Pinpoint delivery to where and who you need, such as doctors and technicians in the field
- UN3373, handling hazardous materials such as dry ice, as well as large and long cargoes
- On board courier is available depending on needs.
